The Prelude™

We've taken one of our original and proven performers, and turned it into anything but an entry level seating option. The new Prelude™ slim-line stool combines classic design and modern performance at a value you won't need to sit down for. The sleeker, more compact, low profile is perfect for venues with smaller footprints or spatial constraints, providing maximum seating possibilities while its ergonomically molded cushions supply maximum comfort for your guests. It's the perfect prelude for great times to come.
