## Vespur

Destined to attain celebrity status and glamour like those who are also known by one name: Jackie, Marilyn, Dean and Brando. Vespur was created with the mystique aura of a sleek goddess combined with 50's swagger and dashing good looks... this is a style that has what you want with a provocative, but never pretentious, mid-century design that embodies the timeliness and temper of an era of elegance. Vespur, with crisp, clean geometric shapes and tapered legs, is distinctly classic.
