

# The Quantum™ Series

## A Gasser Chair Innovation

A meticulously crafted chair that combines modern design, comfort and performance at a surprising value. Featuring an ergonomically molded seat and a solid extruded aluminum base, The Quantum™ Series offers the superior quality and durability that are expected in any of Gasser's chairs. Options allow for adding Gasser's Quick Change Seat (created by Gasser in the 1980's), seat heights from poker to table games and a narrower width when increasing your chair count at gaming tables.
