Elegant Hotel Banquet Chairs » Seating for Any Setting

Elegant décor creates a memorable setting for guests, but it's not possible to have that perfect setting without the perfect seating.

Gasser Chair Company has been in the elegant hotel seating business since 1946, and they currently manufacture fine banquet seating in styles ranging from unique to classic.

Jason Potter, general manager and sales director at the Hotel Fort Des Moines, uses **Gasser** chairs to add distinction and comfort to the hotel's banquet rooms. "They enhance the

beauty of the hotel, which makes it easy for us to sell our banquet rooms," he says, "and the style of the chairs matches the classic décor of the hotel."

In addition to **Gasser's** stylish banquet chair features, Potter recognizes their durability and quality construction. "The back of the chair offers superior support and flexibility," he says.

Potter believes that **Gasser's** durable banquet chairs can withstand the high use demanded by the hospitality industry. "[The chairs] are three years old, and they are in great shape," he notes.

Hotel Fort Des Moines guests also like the special event chairs. "The heavy padded chair cushion is thicker than most banquet chairs," Potter observes. "We receive comments from guests stating how comfortable these banquet chairs are."

For beautiful and comfortable hospitality seating, Potter chooses **Gasser** Chair. "I highly recommend the product"-AV

***Gasser** Chair Company was the first company to design and develop a unique style aluminum-framed banquet chair specifically for the hotel and entertainment industries. Aluminum offers hotels a highly durable, lightweight chair frame in a variety of banquet chair finishes and colors. These banquet chairs and stackable seating options are available in a wide range of styles to suit any décor.*
