FORM, FUNCTION, FORTUNE

A VISUAL RETROSPECTIVE OF CASINO SEATING
FROM THE GASSER CHAIR ARCHIVE

gasser

80 YRS

SINCE 1946

Gasser's legacy began in 1946 with a belief that thoughtful design can change an industry. That foundation has guided us for the last 80 years. Our philosophy is simple: purpose-driven designs with every curve, stitch, and structure crafted to serve both form and function.

A legacy, **chairished** and enduring.

This book was created to celebrate the Gasser chairs that graced casino floors around the world from 1986 to 2003 and the remarkable interiors they helped bring to life.

Over the decades, Gasser has partnered with an extraordinary range of casinos from beloved regional destinations to some of the most iconic names in gaming. The photographs within capture both the evolution of Gasser seating as well as the trends that defined a transformative period in casino design.

In an era of bold interiors and architectural ambition, casinos were as much about atmosphere as they were about gaming. Gasser chairs became an integral part of these environments, helping to shape the guest experience while contributing to the distinctive visual identity of each property.

We are truly delighted to share this look back at some of the most visually captivating decades in casino history and are honored to have been a trusted partner to the visionaries behind these spaces.
