SLOT

*The
Original*

Experience the seat that changed the game for casino comfort.

Gasser Chair has long been known as a pioneer of casino seating. We're credited with building the very first iteration of the slot stool in the 1970s, and in celebration of our 80th anniversary, we've brought it back to life.

The stool was originally created in collaboration with legendary casino designer Henry "Bud" Conversano for Harrah's Lake Tahoe and aptly named the BC-445 in his honor.

Now, recreated with period appropriate finishes and engineering, these original slot models were built to honor our history and mid-century roots, plus spotlight the evolution of casino seating.

METRO

MET-100
